

Arjun Swarnkar

Full Stack Web Developer • SaaS & Product Development

7017595056 | swarnkararjun441@gmail.com | [linkedin.com/in/arjun-swarnkar-1a7103228](https://www.linkedin.com/in/arjun-swarnkar-1a7103228)

PROFESSIONAL SUMMARY

Results-driven Full Stack Web Developer with hands-on experience at Heloix Startup Minds Pvt. Ltd., where I independently manage end-to-end product development — from client requirement gathering and Figma UI design to full website delivery. Proficient in building live SaaS platforms, B2B reseller solutions, and real-time trading applications. Adept at translating complex client needs into production-ready digital products.

WORK EXPERIENCE

Full Stack Web Developer | [Heloix Startup Minds Pvt. Ltd.](#)

6 Months
Currently Working

Key Responsibilities:

- Handle complete project lifecycle — client requirement gathering, scope definition, and project delivery
- Design UI/UX mockups in Figma matching client brand guidelines before development
- Build and deploy full-stack web applications for live clients across multiple domains
- Develop AI-powered prompt engineering solutions integrated into client products
- Manage SaaS architecture, reseller panel configuration, and multi-tenant product setups
- Work across trading platforms, jewellery e-commerce, and enterprise B2B solutions simultaneously

LIVE PROJECTS DELIVERED

[KTC Jewellery](#) — Full Stack, SaaS, Multi-Tenant, E-Commerce

Multi-currency, multi-language jewellery e-commerce platform with Gold, Diamond, Platinum, Bridal & Gemstone categories. Includes a trade/reseller account system where users can register and manage their own storefronts. Live in production.

[ZexBroker](#) — Next.js, Trading Platform, Full Stack

Online trading platform supporting stocks, crypto, and forex. Built complete frontend using Next.js with trading dashboard, user accounts, and real-time data integration. Live and actively maintained.

[Scale.io](#) — Performance Marketing, Web Application

Website for a performance marketing agency offering growth strategy, funnel optimization, and data-driven ad campaign management. Designed and developed the full site from scratch.

[Bidroid.io](#) — Performance Marketing, Mobile Advertising

Platform website for a mobile advertising and performance marketing service covering user acquisition, retargeting, and programmatic ad campaigns. Built and delivered complete frontend and backend.

Quboyd Skill — Figma Design + Full Stack Development

First major project at Heloix. Delivered pixel-perfect Figma-to-code implementation matching client brand guidelines, followed by complete website development.
